

## Salmonid Restoration Federation

**40<sup>th</sup> Annual Salmonid Restoration Conference April 25-28, 2023 Fortuna, CA**

### *Final Call for Abstracts*

Presenter Abstracts deadline is November 16, 2022

Session / Workshop Coordinator Final Abstracts with a list of final presenters are due on November 22, 2022

In 2023, Salmonid Restoration Federation intends to produce the 40<sup>th</sup> Annual Salmonid Restoration Conference in Fortuna, California. The first two days of the conference include technical workshops and field tours. Thursday begins with a half-day plenary session followed by 1.5 days of technical, biological, and policy-related concurrent sessions. This conference will focus on a broad range of salmonid and watershed restoration topics of concern to restoration practitioners, watershed scientists, fisheries biologists, resource agency personnel, and land-use planners.

#### **Proposed Workshops:**

- Healthy Fire, Healthy Fish: Fates intertwined, strategies aligned
- Flow Enhancement Workshop
- The Future Is Now: How to Use Practical Remote Sensing Tools to Gain New Perspectives in River Restoration and Watershed Assessment\*
- California Lamprey Considerations for People Restoring Streams Workshop and Field Tour

\*Note: SRF is not accepting abstracts for instructor led workshops

#### **Proposed Sessions:**

- Large-scale Fisheries Habitat Restoration in Working Landscapes
- Fish Passage Design and Implementation Lessons Learned
- Modeling Salmonid Habitat: Stream State, Forest Conditions, and Future Climates
- Riparian Corridors, the Link Between Upland and Instream Restoration
- Resolving Policy Barriers to Increase the Resilience of Coastal Rivers, Fish and Water Supplies in a Rapidly Drying Climate
- Collaboration Approaches to Build Trust and Engage our Diverse Communities
- The Technical and Ecological Considerations to Expedite Large-scale Dam Removal
- 20+ Years of Restoration on the Trinity River: What Have We Learned, and Where Do We Go from Here?
- The Eel River: A River of Opportunity with Implications Beyond Its Basin
- Environmental Dimensions of Post-legalization Cannabis Cultivation
- Cal-PBR Network: Process Based Restoration in a Changing Climate
- Acceleration Restoration- New Tools to Get the Job Done
- Please May I Get Upstream? Reintroducing Extirpated Salmon Runs Upstream of Dams

Here is a [link](#) to the 2023 Salmonid Restoration Conference Abstract Submission Form.

Concurrent sessions have historically featured six presentations that are each 25 minutes long including questions, but SRF is currently considering changing to seven shorter duration presentations. SRF encourages presentations on completed projects that have a monitoring and assessment component. The Agenda Coordinator will work with each Session Coordinator to confirm presenters by December 2022.

### **Submitting Session and Presentation Abstracts or Posters**

Submitting an abstract for the 2023 Salmonid Restoration Conference is a two-step process.

- **Step 1: Complete the online abstract submission form, which can be found at the following address: <https://forms.gle/zMmoss85jYRSP8Eu8>**
- **Step 2: E-mail your abstract in a Word Document to [abstracts@calsalmon.org](mailto:abstracts@calsalmon.org).**

The formatting requirements for the Word Document are as follows:

- An abstract of 500 words or less
- 12 point, Times New Roman font, left justified only and minimal formatting
- Title of your abstract
- A list of all the authors, their affiliations and credentials, and e-mail addresses. Presenters must be clearly identified. Please write out this information exactly as you would want it listed in the Presenter Directory including professional credentials.
- Indicate if the presenter is a student.
- Indicate what concurrent session or workshop you would like to contribute to, or indicate “Poster.”
- Include preference of presentation type (i.e., PowerPoint LCD projector).

### **Example:**

Title: Sample Title

Author: Maria Gonzales, PhD, California Department of Fish and Wildlife, [maria.gonzales@wildlife.ca.gov](mailto:maria.gonzales@wildlife.ca.gov) (Presenter), and Co-author: Martin Jones, PE, NOAA Fisheries, [martin.jones@noaa.gov](mailto:martin.jones@noaa.gov)

Concurrent Session: Reintroduction of Salmon into their Historic Habitats

Presentation Type: PowerPoint

Abstract: Write your abstract here.

All contributions, including Session and Presentation Abstracts, should be submitted electronically by email to [abstracts@calsalmon.org](mailto:abstracts@calsalmon.org) with abstract attached as an MS Word file. Receipt of your submission will be acknowledged by email and forwarded to the correct session chair. For any additional information, please contact SRF at (707) 923-7501 or [info@calsalmon.org](mailto:info@calsalmon.org).
