

# Fish & Fire 2026

Join us for the 4th annual Fish & Fire Workshop, hosted as part of the 43rd annual Salmonid Restoration Conference! This workshop provides a rare space to learn about research, management, and policy at the intersection of fish, water, and fire. These workshops are known for their interesting presentations, rich dialogue, door prizes, and spirited audiences. Whether you are a fish person, a fire person, or just curious, we hope you'll join!

## ON THE AGENDA THIS YEAR:

**Keynote Address—Fish & Fire 2026**  
Ron Reed, Karuk Tribe

**Fish and Fire – Key Past Workshop Insights**  
Josh Smith & Lenya Quinn-Davidson  
Watershed Research and Training Center,  
UC ANR Fire Network

**Metals in Wildfire Suppressants**  
Daniel L. McCurry, PhD  
University of Southern California

**The Potential of Ecological Remediation for Post-Fire Soil Cleanup**  
Danielle Stevenson, PhD  
Centre for Applied Ecological Remediation

**Integrating Process-Based Restoration into Post-Fire Emergency Response Efforts**  
Gabrielle Bohlman  
USDA Forest Service

**Connecting Instream and Upslope Restoration in the Western Klamath Mountains**  
Will Harling  
Mid Klamath Watershed Council

**Fuels To Flows: Bringing Nature-Based Stewardship to the Headwaters**  
Brock Dolman  
Occidental Arts and Ecology Center

**Temporal Habitat Changes and Related Fish Response following Catastrophic/Landscape Level Fires: Accounting for Impacts when Prioritizing Restoration Need and Location, and Fish Population Estimation(s)**  
Patricia Bratcher  
U.S. Fish and Wildlife Service

**Riverscape Restoration – Habitat Resilience in the Face of Wildfire along Whychus Creek, Central Oregon**  
Mathias Perle  
Upper Deschutes Watershed Council

**April 29, 2026**  
**9 am–5 pm**  
**Redding, CA**

Salmonid Restoration Federation  
43rd Annual Conference
